

KR-E45

- Various working modes available (public mode, private mode etc), suit for different applications.
- Emergency power supply solutions: low voltage alarm when lower than 4.5V, automatically unlock when lower than 4V, external battery box & adapter for power supply, etc.
- Various colors of lock panels can be chosen: black and silver.
- Micro USB connector/3.5mm socket for emergency power supply.
- Two ways for power supply: 4*1.5V AAA battery & 6V DC, if customers need, it also can be used in 12V DC.
- Hooks suit for various applications with two installation way: vertical or horizontal.
- Customers can use the mobile APP to control the lock.

Can be matched with four kinds lock body.

Page number → P9-P16

| | |
|---------------------|---|
| Material | ABS for lock body shell, 304 stainless steel & PC for panel |
| Power consumption | Static power consumption <100uA dynamic power consumption <200mA |
| Working voltage | DC6V(4*AAA 1.5V) Batteries can standby for around 1 year |
| Working environment | Working temperature -15°C ~ +65°C Working humidity 10% ~ 90%RH |
| Low voltage | Air static 15KV |
| Anti-air discharge | Touch static 8KV |
